SINEWORK SHIFERAW'...

About Me

Full-stack Java developer with over 4 years of hands-on experience on modern Java-based technologies, mainly using Spring and Hibernate with databases such as oracle, plsql, MySQL, and MongoDB. I used ReactJS for front-end development. I have worked on business domains like construction, internet-of-things, hospitality, health, e-commerce and agriculture. I am a very good team player and quick learner.
